Protective and Hygiene Measures for our Face-to-Face Trainings

To guarantee maximum safety of attendees and presenters, we have implemented numerous protective measures following the recommendation of relevant experts:

- Attendees will be instructed on-site regarding the protective measures
- Small groups
- Seating with safety distance between attendees
- Frequent ventilation of classrooms
- Frequent disinfection of door handles, tables, surfaces, toilets etc.
- Frequent disinfection of seminar material
- Synchronized brake times
- Attendees are required to wear a protective mask
- Thermometer available

Your cooperation is essential!

Please observe the following safety measures before and during the training:

- Please bring your protective mask with you.
- If required, we provide disposable masks.
- Wash your hands frequently and properly with soap (min. 20-30 sec), dry them with a disposable towel and disinfect them
- If you need to cough or sneeze, use the crook of your arm
- Do not shake hands or hug
- Take your temperature
- Keep your hands away from your face
- If possible, travel by car instead of public transportation

Please don’t hesitate to contact us in case of questions. The health and welfare of your and our employees are our top priority.
